

# ASF video file + VLCPlayer

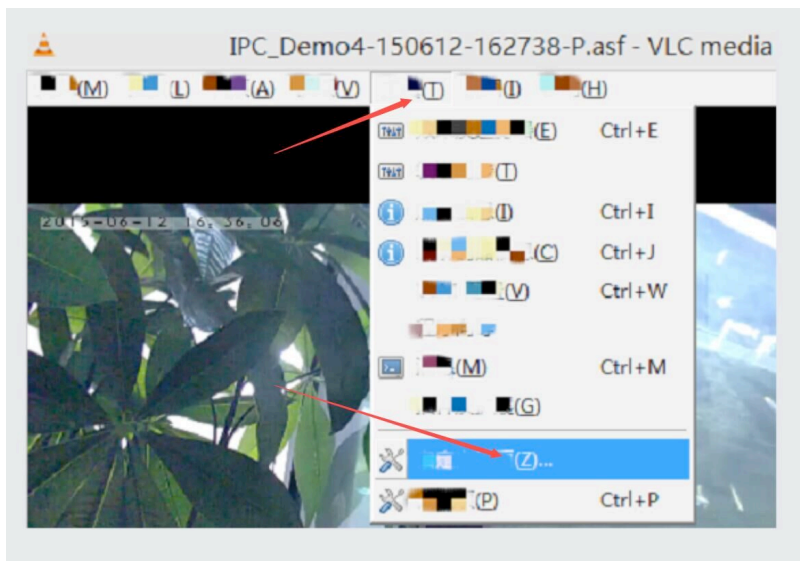

1. Snapshot and Recorded videos by IOS system (iPhone or iPad) can be exported by iTunes;

2. Play by VLCPlayer

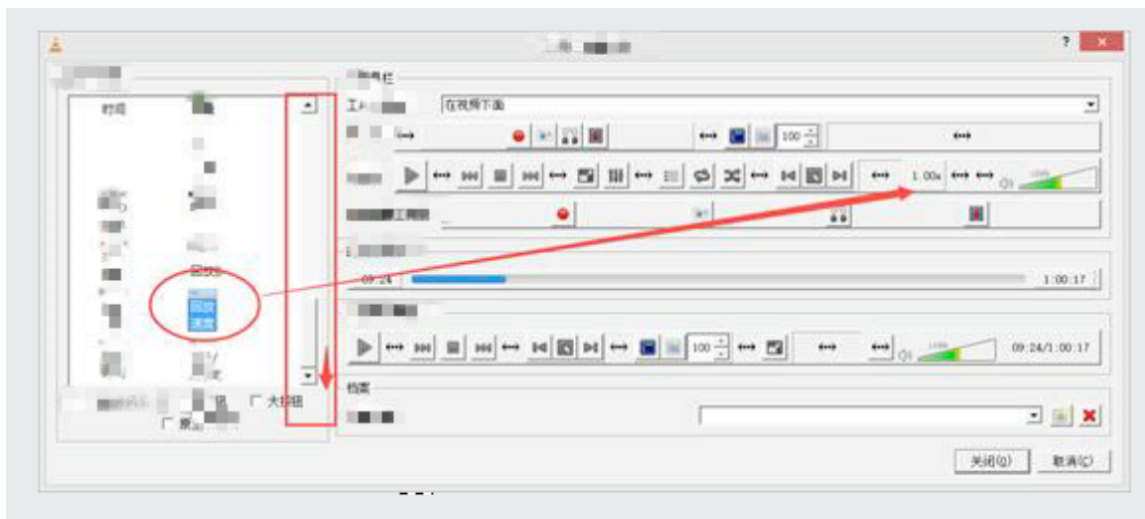

A. Open driver CD - VLCPlayer (V2.0.1) to play asf videos directly (can play forward);

B. If can't play forward asf videos, pls operate as below to speed play;

a,Open Toolbar(T) -> Customize User Interface(Z);

b,Add left side"Playback Speed 1.00x" to right side toolbar first line or second line;

c,Then you can set playback speed when playing videos (Better lower then speed 8X)
